ROOT CANAL TREATMENT

Save the tooth. Often in one sitting.

Done by Dr Shikha Goel, MDS in Conservative Dentistry & Endodontics, with an operating microscope (4–25× magnification), rotary files, an apex locator and digital X-ray in the room.

- Single-sitting root canals when the tooth allows
- Microscope-assisted for molars, re-treatments and cracked teeth
- Same-day CAD/CAM crown available, so the tooth is finished in one visit
- Local anaesthetic; laughing gas for anxious patients

PATIENT REVIEWS

4.8 on Google, from 708 reviews.

READ THEM ON GOOGLE

"I visited Dr Shikha Goel due to severe tooth pain. She explained the cause and treatment in detail. I got one wisdom tooth removed and one root canal done... I got a single-day crown also in 1 hour, which saved me a visit."

REKHA UNIYAL · ROOT CANAL & EXTRACTION

"I went for an RCT. Full treatment was done in a single sitting, and even the crown was delivered the same day. Dr Shikha involved me in designing my crown."

SANDEEP GOYAL · SINGLE-SITTING RCT

"My son is currently undergoing treatment for teeth alignment with Dr Shikha Goel... I've also had my own teeth cleaned by her, and the experience was wonderful."

RICHA HORA · KIDS' ORTHODONTICS & CLEANING
